DISEASE OUTBREAK/PANDEMIC BAN LIST

The U.S. Centers for Disease Control and Prevention (CDC) has rated the following countries at Level 3; their highest rating and recommends that travelers avoid all nonessential travel to the countries listed below.

*International Travel

**Venezuela

* Avoid all international travel due to the global impact of COVID-19. Widespread ongoing transmission of respiratory illness caused by the novel coronavirus (COVID-19) is occurring globally and can be spread from person to person. Older adults and people with chronic medical conditions are at increased risk for severe disease. Because there are disease related health risks, and travel assistance and evacuation services cannot be guaranteed, Rotary funded travel to, from and through and within all countries is restricted until further notice.
**The country is experiencing outbreaks of infectious diseases, and adequate health care is currently not available in most of the country. **Rotary funded travel to this country is restricted.**

Those with funded assignments to, from or through these destinations should contact RITS@rotary.org for further direction and information.

Regardless of what is stated here, it is the traveler’s responsibility to investigate the area to which he/she is going and assess the risks.

Exceptions to this list may only be granted by the Rotary General Secretary.
