Foundation grants and the six areas of focus; and enhancing the image and awareness of the Foundation’s record of achievements. Chairman Klinginsmith requested an update on the progress of these objectives.

The Board took a similar decision at their October 2015 meeting. 2017–18 Chairman Paul Netzel proposed one of the 2017 RLTI lead facilitators for the Trustees’ consideration.

**DECISION:** The Trustees agree to the selection of Mary Beth Growney-Selene to serve as one of two lead facilitators on the 2017 Regional Leaders Training Institute planning team with the moderator Bryn Styles and another lead facilitator appointed by the RI Board.

104. **Trustee Promotional Travel Funds**

**Statement:** Rotary Foundation Code of Policies section 26.010. provides guidelines for the use of US$5,000 promotional travel funds allocated to the Trustees over a four-year period. The Finance Committee recommended an increase in these promotional funds to allow for additional fundraising activities and travel.

**DECISION:** The Trustees

1. increase the amount of promotional travel funds available to Rotary Foundation Trustees from up to US$5,000 per Trustee, to up to an annual US$10,000 per Trustee, effective 1 July 2016;

2. amend the Rotary Foundation Code of Policies regarding the guidelines for Trustee promotional travel expenses as follows:

26.010. **Promotional Travel Expense Guidelines**

The guidelines for the promotional activities of the Trustees are as follows:

- To warrant the Trustees’ participation, activities should clearly promote Rotary’s Foundation, including promoting and educating prospects on the activities of the Foundation, which are intended to and, if possible, result in significant contributions, address stewardship issues or programs promotion.

- Clubs, districts and other groups requesting Trustees to participate in their activities should pay the Trustees’ travel, lodging and other expenses.

- In promoting the Foundation, Trustees incurring annual expenses not exceeding US$5,000 US$10,000 shall be reimbursed upon request. Each such request shall be accompanied by receipts and a brief report to the trustee chairman on the event. This amount may not be used to fund the expenses of a Trustee attending a Rotary institute to which another Trustee has been assigned by the chair.

Statement: In decision 97, January 2015, the Trustees created the TRF Code of Policies Simplification Committee to review the Code in its entirety to ensure that it still meets its intended purpose as a compendium of existing Trustee policies. In decision 16, October 2015, the Trustees noted with approval the committee’s proposed revision to the Code’s table of contents. The committee met on 1–2 February in Evanston, Illinois, USA and later in February via teleconference to continue its work. The committee suggested that its work, which it planned to complete by 30 June, be reviewed by a subcommittee of Trustees to ensure no substantive changes or deletions were made.

108. Fund Development Committee Report

Statement: The Fund Development committee met on 30–31 March 2016 and discussed the new global and district grant models, the new Arch Klumph Society induction format, the Fund Development committee goals, changes to the sustaining member banner for major donors, and the establishment of training for endowment/major gifts advisers, among other topics.

DECISION: The Trustees

1. thank the Fund Development Committee for its report;

2. amend the Rotary Foundation Code of Policies section 21.040.7, as follows

21.040.7. Every Rotarian, Every Year/Sustaining Club Banner

3. agree to implement a Centennial Year Pilot recognition concept called the “Arch Klumph Society Centennial Family Circle,” as shown in Appendix C, whereby lineal family members can be named as recipients by Arch Klumph Society donors with new cash contributions to The Rotary Foundation starting at US$250,000;

4. approve an approximate net increase of $163,800 in costs for Rotary year 2016–17 for a stand-alone Endowment/Major Gifts Advisers Training Institute, as shown in Appendix D, noting this will result in a decrease of approximately $72,300 in other budget areas;

5. agree that endowment/major gifts advisers will not participate in the Regional Leaders Training Institute for a period of three years, through 30 June 2019 to allow for the model to be rolled out fully;

6. request the general secretary to develop a) terms of reference for the Endowment/Major Gifts Advisers Advisory Group and b) 2016–17 budget implications, for report at the June 2016 Trustees meeting.

Statement: In decision 43, October 2015, the Trustees looked with favor on the concept of developing a long-term plan for growing Rotary’s endowment to more than $2 billion in net assets and commitments by 30 June 2025. In decision 83, January 2016, the Trustees received an update on a long-term plan to reach this goal and requested a preliminary plan for review at this meeting. In reviewing this plan, the Fund Development Committee agreed that its success depends on separate strategies for two types of gifts: commitments and outright gifts. The committee proposed strategies for maximizing each gift type, including training, marketing, and solicitation activities.

DECISION: The Trustees

1. receive the long-term proposal to build The Rotary Foundation’s endowment to US$2,025 billion by 2025;

2. adopt a goal that by year 2025 the Foundation’s endowment will comprise at least $1 billion in net assets and $1.025 billion in commitments;

3. request the general secretary to provide an update on the training, marketing, and gift solicitation activities for this proposal at the September 2016 Trustees meeting;

4. reaffirm that the endowment/major gifts advisers will be responsible for implementing the plan in his or her region to reach the goal of US$2,025 billion by 2025.

110. Areas of Focus Major Gifts Initiative Report

Statement: In decision 118, April 2015, the Trustees requested the general secretary to work with the Fund Development Committee to develop a business plan and specific strategies for major gift initiatives supporting Rotary’s areas of focus. In decision 41, October 2015, the Trustees requested the general secretary to develop a donor stewardship plan for these initiatives. The general secretary presented key planning points and specific strategies, including training, communications, gift opportunities, and a timeline. The Fund Development
Committee also suggested special Foundation centennial naming opportunities.

DECISION: The Trustees

1. reaffirm their decision 41, October 2015 to launch the Water and Sanitation Major Gifts Initiative, beginning 1 July 2016;

2. approve the Areas of Focus Major Gifts Initiative final action plan as shown in Appendix E;

3. approve the naming opportunities as shown in Appendix F;

4. approve Endowment Fund Centennial recognition opportunities, as shown in Appendix G, subject to the Board’s approval, with

Option A: 100 percent of the spendable earnings used to support Rotary Foundation operations;

Option B: 50 percent of the spendable earnings used to support Rotary Foundation operations and 50 percent used to support Foundation programs;

Option C: 100 percent of the spendable earnings used to support Rotary Foundation programs;

5. request the Fund Development Committee to provide an update on naming opportunities for gifts of US$1,000,000 and greater at the September 2016 Trustees meeting;

6. agree that, beginning 1 July 2016, gifts and commitments received for an area of focus will count towards that area of focus’s fundraising goal, even if that area of focus’s initiative is not launched until a subsequent year;

7. agree that District Designated Funds can be directed to the Endowment Fund for the areas of focus and will count towards the initiatives;

8. request the general secretary to provide periodic updates on the progress of the Areas of Focus Major Gifts Initiatives, beginning in April 2017;

9. request the general secretary to budget US$36,000 for the Water and Sanitation Major Gifts Initiative Committee meeting and $95,805 for Water and Sanitation Major Gifts Initiative cultivation events in 2016–17.

111. Corporate Social Responsibility in India

Statement: The Indian Companies Act requires companies with an average net profit of at least 50 million rupees (approximately US$816,000) over a three-year period to spend two percent of their net profit on what is termed “corporate social responsibility” (CRS). In decision 86, January 2016, the Trustees received the general secretary’s interim report on the possibility of Rotary Foundation (India) receiving CRS funds and requested a final report at this meeting. The general secretary reported that TRF’s consultant Ernst & Young agreed that Rotary Foundation (India) is an eligible entity for accepting CSR funds and proposed a four-phased process for beginning to accept these funds. The general secretary also reported on potential challenges to the process.

DECISION: The Trustees

1. receive the general secretary’s final report on the possibility of Rotary Foundation (India) receiving corporate social responsibility (CSR) funds from corporations in India;

2. agree to accept CSR contributions in India beginning in the 2016–17 Rotary year, provided that the necessary processes and procedures are established consistent with Rotary Foundation guidelines as a three-year pilot project through 2018–19.

DECISIONS 112–121

Programs Committee Report: Grant Model Evaluation

Meeting 1–4 March 2016 in Evanston, IL, USA

112. Grant Model

Statement: The Trustees received the evaluation for the new grant model from collected grant activity data over the 2013–14 and 2014–15 Rotary years. The Programs Committee suggested that further evaluations and monitoring are needed and should continue on a consistent basis.

DECISION: The Trustees

1. reaffirm their commitment to the new grant model and agree that it will take time for the model to achieve its critical success factors through continued investments in training and communication;

2. recognize that the grant evaluation report highlights opportunities to further enhance and improve the new
grant model, which will be developed for consideration in the future;

3. agree to continue regular evaluations of the grant model to ensure it meets the needs of Rotary clubs, districts, and grant beneficiaries.

113. Training

Statement: The Programs committee reported on several training options for grant sponsors to help transition from the traditional grant model to the new grant model, including properly disseminating information through mailings, seminars, and regular communication with Rotary Foundation coordinators and endowment/major gifts advisers. The Programs Committee further suggested that the general secretary evaluate and monitor the progress of these trainings and communication efforts.

DECISION: The Trustees acknowledge the importance of directly training grant sponsors to ensure they are fully prepared to participate in the grant application process, and therefore:

1. request the RI Board to
   a. encourage districts to allocate more time and emphasis on District Foundation Seminars and the Grant Management Seminar;
   b. provide training and support to district international service chairs to help ensure quality needs assessments and project design before developing a global grant application;
   c. encourage districts to appoint district international service chairs for three-year terms;

2. request the general secretary to:
   a. evaluate the role and function of regional Rotary Foundation coordinators and endowment/major gifts advisers to ensure that clubs and districts receive effective support for their grants and fundraising activities, for report to the Trustees at their January 2017 meeting;
   b. continue Rotary Grants communication and training efforts to ensure that Rotarian satisfaction with Rotary Grants remains high;
   c. work with cadre members and regional experts in building Rotarian capacity to provide direct training and support to grant sponsors;
   d. conduct an evaluation of how the recently revised Grants Management Seminar materials have impacted Rotarians’ understanding and adoption of the grant model, for report at the April 2017 Trustees meeting;
   e. develop a communications plan to update club and district leaders about why the district and global grant model was implemented and how it benefits them and Rotary as it prepares for the post-polio era;
   f. review and update qualifications of district Rotary Foundation chairs and district grant subcommittee chairs, for report to the Trustees at their April 2017 meeting;
   g. support the participation of grant officers and area of focus managers at regional training events.

114. Projects of Scale

Statement: The Programs Committee reported on the importance of identifying project types in each area of focus that can be brought to scale in preparation for the post-polio era and identified several factors to consider when developing these projects.

DECISION: The Trustees request the general secretary, in consultation with the Strategic Planning Committee and Programs Committee, to investigate developing a new grant type that would fund scalable projects in the areas of focus with support from potential partners, and be based on the lessons-learned from packaged grants, polio legacy research, area of focus strategies, and development of opportunity funds, for report to the Trustees at their April 2017 meeting.

115. District Designated Fund Usage

Statement: The Programs Committee noted that in 2014-15 48 percent of District Designated Funds went unused, which was a slightly larger percentage compared to the traditional grant model.

DECISION: The Trustees request the general secretary to conduct further research on unused district designated funds for report at the April 2017 Trustees meeting.
116. Sustainability

Statement: The Programs Committee reported on improvements in the 2015 sustainability check scores compared to the 2012 Future Vision pilot and suggested that continued communications and training on this topic would improve Rotarians’ understanding of grant project sustainability requirements.

DECISION: The Trustees

1. agree that survey data of the sustainability framework in global grants suggests that the grant requirements, application process, and training provided to Rotarians is improving global grant sustainability as measured by the sustainability check;

2. to help Rotarians better understand sustainability requirements for Rotary Grants, request the general secretary to continue communications and training for Rotarians on this topic.

117. Areas of Focus

Statement: The results of focus groups and surveys conducted throughout the grant model evaluation indicate that Basic Education and Literacy and Economic and Community Development were the two areas of focus to which Rotarians had the most difficulty applying eligibility requirements. The Programs Committee suggested amending requirements for these areas, and encouraging clubs to oversee assessments to align projects to specific areas of focus.

DECISION: The Trustees

1. amend The Rotary Foundation Code of Policies regarding eligibility requirements for the Basic Education and Literacy and Economic and Community Development areas of focus as outlined in Appendix H;

2. strongly encourage clubs and districts to more regularly conduct effective community assessments when designing their projects and to align their projects with one or more area of focus;

3. request the general secretary to:
   a. implement standards of fit and quality for global grants in each area of focus and to train staff and Rotarians on the requirements for submitting an eligible grant application;
   b. evaluate whether community assessments should be required in the global grant application process, for report at the April 2017 Trustees meeting.

118. Critical Success Factors

Statement: To gauge the success of the new grant model the Trustees established the following specific “critical success factors:” Rotarian perspective, area of focus fit and quality, grant processing cycle time, operational efficiency, and stewardship/compliance. The Programs Committee noted that for the last two years some established targets for these critical success factors have not been met, most notably Rotarian perspective (as shown by amounts of unused DDF) and grant processing cycle times. The committee suggested actions to help the Foundation meet these critical success factors.

DECISION: The Trustees

1. note that grant processing cycle times continue to trend downward compared to historical trends, and recognize and appreciate staff efforts in this regard;

2. agree that Secretariat feedback on global grant applications appears to be contributing to increases in sustainability check scores;

3. recognize that in the short term, grant processing cycle times will remain higher than the desired target due to the inherent challenges with change management and training Rotarians on the grant model;

4. agree that no changes should be made to the critical success factor targets at this time;

5. request the general secretary to:
   a. continue to improve grant processing cycle time by regularly reviewing the entire business process to identify opportunities and implement changes for further improvement;
   b. provide more communication to Rotarians regarding:
      i) why grant files are reassigned among staff;
      ii) the improvements made in cycle times;
      iii) the expected timeframes for responses from staff;
      iv) the efforts in place to ensure continuity and consistency in grant processing;
c. conduct an evaluation of the critical success factors to identify any necessary adjustments to the targets, for report at the April 2018 Trustees meeting.

119. Programmatic Issues

Statement: As part of the grant model evaluation, the general secretary investigated specific issues related to the new grant model, including partnership difficulties, evaluation of district grant scholars, and lack of multi-club projects, among others. The Programs Committee suggested actions to address the programmatic issues.

DECISION: The Trustees

1. adopt the measurement framework for scholarships as recommended by Hanover Research shown in Appendix I;

2. adopt the measurement framework for vocational training teams as recommended by Hanover Research shown in Appendix J, filed only with the official copy of these minutes;

3. noting that the average global grant award continues to increase, and further noting that 71% of primary contacts and 85% of declined grant contacts indicated it is easy or moderately easy to achieve the US$30,000 minimum budget requirement, agree that no change to the minimum project budget amount is necessary at this time;

4. noting the satisfactory audit findings and achievement of the world reporting target in 2014–15, agree that no modifications to the qualification process or district MOU requirements are necessary at this time;

5. request the general secretary to:
   a. evaluate the role of cooperating organizations in project implementation;
   b. clarify policies regarding excessive financial support to cooperating organizations;
   c. investigate, in addition to Rotary Ideas and Showcase, other ways to encourage clubs and districts to partner and to develop multi-club projects;
   d. provide an update on these points to the April 2017 Trustees meeting.

120. Technology

Statement: The Programs Committee reviewed feedback from Rotarians and non-Rotarians regarding the online grant application tool. While much of the feedback was positive, the committee suggested improvements to the user experience, business process and project management, the speed of the site, and the ability to access the tool from rotary.org.

DECISION: The Trustees request the general secretary to

1. develop resources and training tools for Rotarians to learn the new online grant application functionality;

2. continue to monitor Rotarian feedback on the adjustments made to the online grant application tool and conduct a follow-up survey and focus group assessment in September 2017 to evaluate if the system modifications, training, and communication plans have addressed dissatisfaction with the online tool, for report to the January 2018 Trustees meeting.

APPENDIX A

SUMMARY OF DECISIONS TAKEN ON BEHALF OF THE TRUSTEES
(Decision 96)

Exhibit 2-a: Citation for Meritorious Service Awards
• 22 award recipients.

Exhibit 2-b: TRF Cadre of Technical Advisers
• The cadre reviewed 36 grants, including 10 technical reviews, three random audits, three advance site visits, 14 interim monitoring visits, two post project site visits, three Grant Model Evaluation Beneficiary Level interviews, and one Grant Model Evaluation site visits.

Exhibit 2-c: Foundation Programs
• 233 global grants awarded for a total of $6,077,191 in World Fund
• 98 district grants awarded for a total of $4,754,075 in DDF

Exhibit 2-d: Waivers
• In January 2016 the Trustees agreed to limit global grant scholars coming to the US to tuition, books and fees as these expenses do not require the Secretariat to withhold taxes. Per the Trustees’ request, the general secretary is bringing alternative options to the Trustees in April 2016. In the meantime, the general secretary has noted that approximately a quarter of the students who come to the US each year are from Japan, and therefore paid by the PIIF (Japanese associate foundation). The PIIF is not required to do withholdings for these students, and a number of them are research scholars, whose expenses do not include any tuition, books or fees. The general secretary, in consultation with the Trustee chair, granted a waiver from the budgetary restrictions for these students.

• Districts/Clubs: Rotary Club of Viareggio Versilia (District 2071) and Rotary Club of Kensington (District 1130)
  Nature of Request: Flavia Sorbi is currently a doctor in her fourth year of the residency program in obstetrics and gynecology at Careggi University Hospital in Florence, Italy. This application is to provide a scholarship to Ms. Sorbi to take part in a research and clinical fellow program and attend courses to advance her knowledge in screening programs and surgical techniques within gynecology and oncology at Imperial College in London for four months. Her future plans are to come back to Italy and use the knowledge she has gained to treat her patients more effectively, pursue additional cancer research, and promote new screening programs. TRF policy states that global grants provide scholarships to fund graduate level coursework or research or its equivalent for a term of one to four academic years. Due to this applicant’s background, future career plans and coursework’s strong alignment with the area of focus, we have granted a waiver for the minimum one year requirement and approved the grant as proposed.

• Districts/Clubs: Rotary Club of North Scott, Davenport (District 6000) and Rotary Club of Masaka (District 9211)
  Nature of Request: This project seeks to teach animal and crop production skills to the community, provide training on handicraft production for tourists, provide water tanks and toilets to 20 households and the orphanage and provide furniture and supplies to be used for educational activities. The project is being conducted in conjunction with the installation of a water well, funded through a grant from the grocery chain Hy Vee. This application required extensive coaching from a team of staff to be eligible for global grant funding. While the sponsors modified certain aspects of the project’s design to ensure greater impact and success, they were unwilling to make the necessary modifications to the BEL portion of the project. Rather than prolong what was increasingly becoming a contentious interaction with the international primary sponsor, the general secretary waived the sustainability requirement for the BEL portion of the project.
This new recognition concept is a result of recent requests from Rotarians who would like to honor family members as AKS. To try and accommodate requests such as these without taking away from the importance of recognizing the significant contributions given by our current Arch Klumph Society members, the idea of AKS Centennial Family Circle was born.

**Key features:**
1. 1 July 2016 launch date as a TRF Centennial Year pilot.
2. Children, Grandchildren, Parents, Siblings and Grandparents of the donor will be eligible to become an AKS Centennial Family Circle recipient.
3. A minimum of US$250,000 given to TRF during the Centennial year will be required to name an AKS Centennial Family Circle recipient. Prior year contributions will not be eligible.
4. The donor will be able to choose any designation for the new cash gift.
5. AKS Centennial Family Circle recipients can be named starting from US$250,000 per individual or couple.
6. AKS Centennial Family Circle recipient portraits will exist in the AKS electronic kiosk only and not be hung in the existing AKS Gallery.
7. The donors of the AKS Centennial Family Circle contribution will be recognized for their new gift as part of their own total giving to TRF. For example, if the donor is AKS Level 1 at US$250,000 and they contribute an additional US$250,000 to name an AKS Centennial Family Circle recipient, the donor’s own giving total will increase to US$500,000 and they will reach AKS Level 2. The AKS Centennial Family Circle recipient will receive 250,000 points, but will not be considered a major donor in their own right.
8. AKS Centennial Family Circle recipients will receive the current universal pin or pendant to wear as recognition.
9. AKS Centennial Family Circle recipients will not be eligible to go through the AKS induction process.
10. AKS Centennial Family Circle recipients will not be eligible to attend the AKS dinner at the RI convention but will be granted access to the AKS lounge in the House of Friendship at the convention.
11. AKS Centennial Family Circle recipients will be listed apart from traditional AKS donors in any AKS publications.
12. This concept is specific for the Centennial Year but if successful, could extend beyond the Centennial year.

APPENDIX E

AREAS OF FOCUS MAJOR GIFTS INITIATIVES ACTION PLAN
(Decision 110)

Recognizing the substantial opportunities for increased contributions to support Rotary’s strategic goals, major gift initiatives seeking major and planned gifts of $100,000 or above in three areas of focus were approved in April 2015. The areas of focus selected are water & sanitation; basic education & literacy; disease prevention & treatment and will be launched on a staggered basis. Each will have a minimum financial goal of $25 million over three to five years with a minimum of fifty percent of each goal designated for the Endowment Fund.

This document outlines the key planning points to be considered in the development of a business plan.

### AREAS OF FOCUS LAUNCH ORDER

Because WASH in Schools has already launched in India, it is recommended that the Water and Sanitation area of focus be given first priority. WASH in Schools also incorporates Basic Education and Literacy, so it has been placed second. Global grant naming opportunities already exist for all areas of focus.

- **General endowment fund**
  - Legacy gift opportunity for committed Rotarians and spouses
  - No donor specificity

#### Potential New Opportunities-Under consideration

- **Partnerships**
  - Appealing to foundations and corporations
  - Multi-year commitment possibilities

1. Activity—humanitarian project, scholarship, vocational training team
2. Area of Focus
3. District
4. Geographic location such as Africa, Asia, or Latin America

For example: The Robert and Jane Smith Humanitarian Endowed Fund for Maternal and Child Health— the endowment provides Robert and Jane’s home district in Southern California the opportunity to work on humanitarian grants in the maternal and child health area of focus around the world.

$250,000+ Customized Global Grant Endowed Fund*
A customized endowed fund may be created with up to two of the following options below:

1. Activity—humanitarian project, scholarship, vocational training team

• Basic education and literacy
• Economic and community development

For additional details see the accompanying “Program Designations of Any Amount.”

Please note that only a portion of the earnings are used annually for program spending. Click here to learn more about the Endowment Fund Spending Policy.

TERM GIFTS

Global Grant Naming Opportunities

Special opportunities are available to those who wish to support global grant activities through a term gift. This is generally a one-time gift, used in its entirety for its intended purpose and carries the name of the donor or loved one — for instance, the Robert and Jane Smith Term Global Grant for Basic Education and Literacy. Each term gift will be individually tracked and reported on to the donor.

Term global grants will provide support to humanitarian projects, scholarships, and vocational training teams in one of Rotary’s areas of focus:
• Peace and conflict prevention/resolution
• Disease prevention and treatment
• Water and sanitation
• Maternal and child health
• Basic education and literacy
• Economic and community development

Options vary depending on the size of the gift:

$15,000+
Funds one or more global grant with an area of focus option specified by the donor. A geographic preference for the grant, such as Africa, Asia, or Latin America, will be considered. Donors will receive a letter when the term gift is used with general information regarding the grant.

$30,000+
Funds one or more global grant with an area of focus option specified by the donor. Donors may specify the area of focus and a district to develop the grant, as well as the project or activity type: humanitarian project, scholarship, or vocational training team. A geographic preference for the grant, such as Africa, Asia, or Latin America, will be considered. Donors will receive a report when the term gift is used with specific information on the grant funded by the gift.

$150,000+
Funds one or more global grant as described above. Additionally, donors may specify up to two areas of focus and the option to support any current special initiatives of the Foundation; for example the WASH in Schools (WinS) initiative. Donors will receive a personalized report when the term gift is used, including general information on the grant, how much additional funds were leveraged and pictures when available.

Term global grants are typically supplemented with other Rotary funding which leverages and maximizes each gift. Combined term and endowed gift opportunities are available. Please contact The Rotary Foundation to discuss the opportunity that is best for you.

*Will only be established upon approval by The Rotary Foundation

THE ROTARY FOUNDATION CENTENNIAL RECOGNITION OPPORTUNITIES
(Decision 110)

Special opportunities are available to those who wish to support The Rotary Foundation during its centennial year through an outright gift to the Endowment Fund of $1,000,000 or more. In return for providing crucial support to the Foundation, a donor may be recognized with a plaque in a Rotary International headquarters space for a designated amount of time. The donor’s names will also be recognized in a long-term display at One Rotary Center. The recognition opportunity is limited to one donor or couple per space.

Three options for support to the Endowment Fund are presented for the Trustees’ consideration:

1. 100% of the spendable earnings to support The Rotary Foundation operations
2. 50/50 between program support and offsetting The Rotary Foundation operations
3. 100% program support

Major gift pledges over three to five years are encouraged.

Options include:

</tr>
</tbody>

Other space options may be considered at the donor’s request.

It has been suggested that the two most visible rooms at ORC should be officially named - Paul P. Harris Board Room and the Arch C. Klumph Auditorium - in recognition of the founder of Rotary and the founder of the Rotary Foundation. While this item is not part of the decision recommended it could be added if the Trustees are in agreement. This could be regardless of the decision on Recognition Opportunities.

2. Community beautification projects

3. Construction or rehabilitation of community centers
